Over 82% of real estate leads these days come from the Internet and yet, a high percentage of Realtors® still don't have a website and of the ones who do, very few understand it well enough to generate business and/or success from it. This course teaches all of the essentials of website ownership in a fast paced, yet fun and easy to follow environment. By the end of this course, each student will be able to plan, organize and run an effective website. Then they will be able to develop a marketing plan to promote and drive traffic by utilizing search engines to the max.
